

SURFRIDER
FOUNDATION

'CONVERTING WASTE INTO WANT'

- STEP 1: Find a used skateboard or scrap of wood
- STEP 2: Print, cut out, and trace template on your material
- STEP 3: Use a drill to make starter holes to cut out the handle
- STEP 4: Cut out the handle and outline with a jig saw
- STEP 5: Wrap a scrap of wood with sandpaper and use to sand the outline
Quick tip: Use a round piece of wood to sand the inside handle
- STEP 6: Spray a light clear coat or use varnish to seal up the raw edges
- STEP 7: Take advantage of the "Black Ball" rules of your local beach
